

January 27, 2022

Gig Workers United CUPW represents drivers and couriers across multiple delivery apps in the GTA and beyond. We've earned this representation through organizing on the ground - worker to worker, by strengthening our community, and responding to the demands of workers.

Gig Workers United will continue on the path towards unionization and full and equal rights as a movement for gig workers that is led by workers. We will coordinate with UFCW about how the agreement will be rolled out.

To be clear; as gig workers, we define what our union looks like and how we make decisions. We sit at the table with our employers and put forward our collective demands and we choose the union that sits at that table with us.
